

Producer Responsibility Organization Plan

Extended Producer Responsibility (EPR) is the responsibility of every producer and brand owner of electrical and electronic equipment (EEE) for channelization of e-waste to an authorized dismantler/recycler to ensure environmentally sound management of e-waste.

We, Rekart Innovations Pvt. Ltd. being the Producers Responsibility Organization (PRO) as per E-waste (management) Rules, 2016, are submitting our detailed EPR plan. We consider to prioritizing compliance and follow all regulations amended time to time by government authorities related to e-waste management. We hereby submit our EPR plan having details about the general scheme of collection, channelization plan. RoHS compliance details etc.

General Scheme of Collection

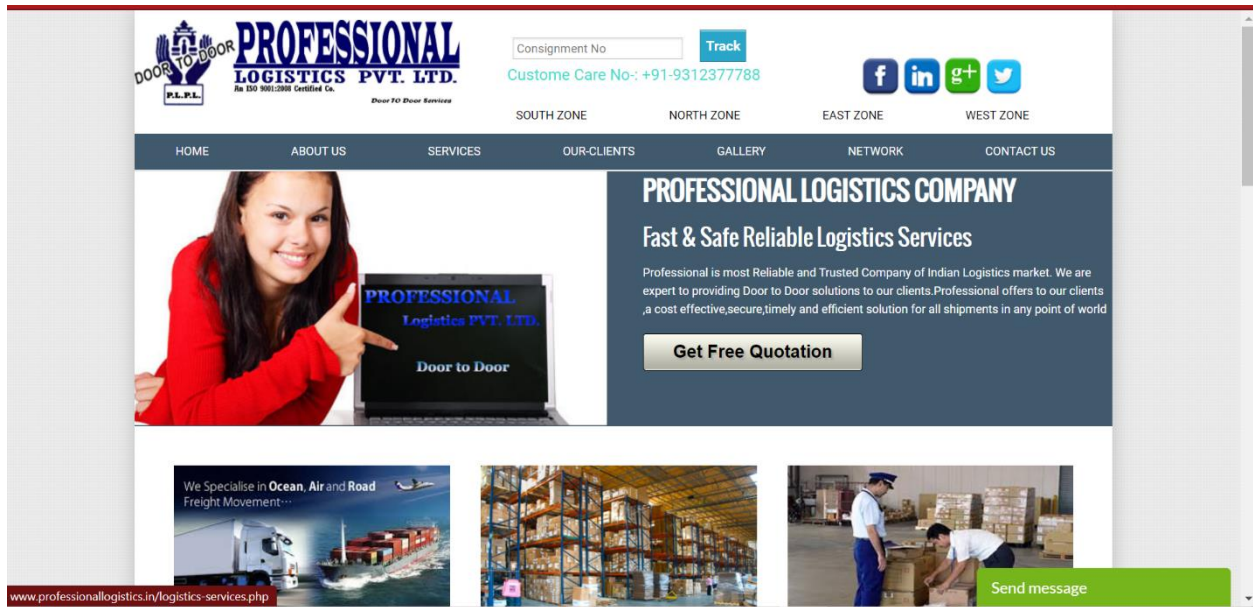

We have partnered with Namu E-Waste Management Ltd. registered with Haryana State Pollution Control Board for management and recycling/dismantling/disposal of all our e-waste.

As a part of agreement, Namu E-Waste Management Ltd. will collect our associated EPR authorized producer's E-waste generated from PAN India and dispose the same at their plant at 14/1 Mathura Road, Faridabad.

- Namu E-Waste Management Ltd, our e-waste management partner is having all authorization related e-waste dismantling from UPCB/CPCB and having all connects related to Air/Water/Hazardous waste. They have capacity of 5796 MT per annum. As per our agreement with Namu E-Waste Management Ltd. If any customer wants to handover their old product they can reach or call our e-waste recycling partner's Toll Free No. 18005723605 Our representatives will explain them about process of disposal and make them inform them about nearest drop point available to them.

Collection Points and Centers

Rekart Innovations Pvt. Ltd. has signed agreement with Professional Logistics Pvt. Ltd. for reverse logistics for Channelization of E-waste to the facility. Copy of an agreement is attached for smooth channelization of E-waste. Copy of Collection list is enclosed.

Copy of Collection Center List Presented below:

Roles and Responsibilities of Service Providers

Role and responsibilities of Reverse logistics

Reverse logistics services are designed to move E-Waste from their point of consumption to an end point to capture value or properly dispose it in a safe and sound manner. This includes managing budgets, organizing schedules & routes. It deals with the collection of E-Waste, transporting them to a central location, and sorting them according to where their final destination will be i.e recycling/dismantling etc..

Role and responsibilities of Recycler/Dismantler

A recycler should have facilities for destroying or permanently deleting data stored in the memory of end of life products (Hard Disk, Telephones, Mobile phones) either through shredding or grinding or through data eraser.

A recycler /dismantler should have weigh bridge and other appropriate weighing equipment for weighing each delivery received by it and maintain a record in this regard.

A dismantler has to obtain consent to establish from SPCBs/PCCs under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981

A dismantler has to obtain consent to operate from SPCBs/PCCs under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981 etc..

Do's for E- Waste

- All electrical and electronic products are required to be handed over only to the Authorized Recycler for recycling.
- The e-waste product should be handed over only to authorized recyclers for disposal.
- Ensure that only Authorized Recyclers repair and handle your electronic products.
- Keep the e-waste in an isolated area, after it becomes non-functional/un-repairable so as to prevent its accidental breakage.
- You can also deposit your e-waste directly at the collection centres.
- Always call our E-waste Authorized Collection centres / points to dispose of products that have reached end-of life.
- Always drop your used electronic products batteries or any accessories when they reach the end of their life at your nearest Authorized E-waste collection centres point.
- Always disconnect the battery from the product and ensure any glass surface is protected against breakage.

Don'ts for E- Waste

- Do not dismantle your electronic products on your own.
- Do not give E-waste to informal (Kabadi) and unorganized sectors like Local Scrap Dealer Rag Pickers.
- The product should not be opened by the User himself/herself, but only by trained and authorized service personnel.
- Do not keep any replaced spare part(s) from the product in exposed area
- Do not dispose of your product in garbage bins along with municipal waste that ultimately reaches landfills.

E-waste Management

Electronic waste or e-waste describes discarded electrical or electronic devices. Used electronics that are destined for refurbishment, reuse, resale, salvage recycling through material recovery, or disposal are also considered e-waste. The informal processing of e-waste in developing countries can lead to adverse

Proposed producers awareness and allied initiatives

Each and every customer is advice and create awareness about how can we handle the electronic goods and channelize it to approved E-waste recycler/dismantler as per E-waste management rules 2016. Lack of awareness among various stakeholders about the ill effects of the end-of-life products (e waste), is the major concern in our country. For reducing the adverse impact on environment and health we need to initiate sustainable mechanism to create awareness among the stake holders.

Rekart Innovation Pvt. Ltd. has run several awareness programme on environmental hazards of electronic waste under EPR plan implementation. We plan to provide financial aid for conducting several awareness programs regularly in places where mass awareness can be achieved like academic institutions, industry associations and professional organizations for organizing workshops/seminars for schools/colleges/resident welfare associations (RWAS)/ bulk consumers/regulatory bodies, media engagement etc. So that they can provide information regarding buy-back programme system.

We also try to provide awareness to all by the means of social media like Facebook, and providing advertisements and posters so that each and every customer would be aware about how to handle the E-waste.
